Hi Theresa,

In order to submit a document to the GSDT, the submission must be made by a user with a completed ESA on file with EPA. The authorized submission has the equivalency of being digitally signed. As you are looking to submit an LDNR form, I can't speak to whether the state needs the form signed or not.
If a signature is not needed, you can e-mail the form to your EPA reviewers and they can upload the document into the project file directory in the GSDT.

Thanks,
Dan

Subject: RE: LDNR UIC-60 Submission

Hi Dan,

Does GSDT require an authorized officer to complete the submission, or can we just upload the form as an additional item?

Thanks,
Theresa

Great, thank you Dan. We will upload to the Project Information module and notify Ken Johnson over at Region 6. And yes— the LDNR has requested the UIC-60 form be placed in the EPA site.

Best,
Theresa

Hi Theresa,

The most appropriate place might be the Project Information Tracking module, under the initial permit application or updated information tabs. Field #4 allows you to upload state specific documents.

As Region 6 is currently reviewing the application, you might want to reach out to let them know you've got this document. Is LDNR asking for this form at this time?

Thanks,
Dan

Subject: LDNR UIC-60 Submission

Good afternoon,

The team at Hackberry Carbon Sequestration has completed a UIC-60 CCS form for the LDNR Office of Conservation. Is there a module on the GSDT where we should upload a scanned copy or electronic version?

Regards,

Theresa Cu
